### **Outlook for 2021**

In 2021, Caisse Française de Financement Local will be able to bring its large refinancing capacity to the new major French public finance hub formed around Caisse des Dépôts, of which it is now a part, as well as its parent company SFIL. The financial resilience which it has demonstrated since the start of the health crisis linked to the Covid-19 pandemic and the excellent conditions of access to financial markets from which it continues to benefit, should consolidate its two business lines, established leaders on their respective markets, for the French local public sector and for large French export contracts.

Concerning the financing loans to French local authorities and public hospitals, within the framework of the partnership established with La Banque Postale : Caisse Française de Financement Local will provide its support for the post-Covid-19 economic recovery, in the context of the French government's economic recovery plans to promote investments by local authorities, particularly for the ecological transition (thanks to its green loans) and of the “*Ségur de la Santé*” plan to promote investments by health institutions. Loan financing activity to the French local public sector should therefore be more sustained in the second half of 2021. In addition, work is being carried out with the Banque des Territoires of the Caisse des Dépôts to use the financing capacities of the Caisse Française de Financement Local for structural projects in the local public sector.

Concerning the refinancing of large export credits guaranteed by the French State, supporting the French exporters: Caisse Française de Financement Local will provide as well its support to the post-Covid-19 economic recovery of the different French export credit sectors. The increase in activity seen

in the first half of 2021 is expected to continue through to the end of 2021 given the number of projects under review and their level of progress. Caisse Française de Financement Local also intends to be able to intervene in the credit refinancing system covered by the new guarantee for projects with a strategic interest for the French overseas economy, subject to obtaining the necessary authorizations from the European Commission.

To cover its financing requirements, in a favorable low interest rate environment, Caisse Française de Financement Local plans to issue more than 5.5 billion of covered bonds in 2021, a slightly higher amount than in 2020, with a long-dated average maturity, adapted to the profile of the assets financed. It will carry out this program mainly through a number of benchmark *obligations foncières* issued in euros on the primary market and private placements adapted to the needs of its broad investor base.

In 2021, SFIL will continue as well its CSR actions, including the integration of climate risks into its methodological criteria, the integration of the European taxonomy in its activities and the issuance of bonds in the form of thematic “social” and/or “green” issues. In addition, the SFIL Group's second strategic plan is currently being developed as an extension of the first strategic plan, which affirmed the public development bank model and enabled the Group to achieve commercial and economic results that were well above expectations.

From a macroeconomic point of view, SFIL group will continue to closely monitor the impacts of the geopolitical environment and the market volatility as well as the changes in the regulatory environment, with the finalization of Basel III and the implementation of the transposition into national law of the European directive aimed at harmonizing the covered bonds regimes of Member States.

Moreover, the SFIL Group will continue to attentively monitor the potential short to medium-term impacts of the Covid-19 pandemic on the Caisse Française de Financement Local’s current and forecast operations, on the financial situation of its counterparties (local authorities, hospitals, export credit counterparties, banks, partners) and on market conditions notably for covered bonds.”

## MATERIAL CONTRACTS

The section entitled “**Material contracts**” on pages 139 to 141 of the Base Prospectus is amended as follows:

- The second bullet point of the third sub-paragraph of the paragraph entitled “**Management Agreement**” is deleted.

## RECENT DEVELOPMENTS

The section entitled “**Recent Developments**” on page 142 of the Base Prospectus is deleted and replaced as follows:

“In the first half of 2021, as in 2020, Caisse Française de Financement Local continued its two missions of financing the local public sector and refinancing large export credits within the context of Covid-19 crisis.

During the first half of 2021, commercial activity relating to the financing of the local public sector (carried out in partnership with La Banque Postale) was not as well-supported as in the first half of 2020, particularly in the healthcare sector. However, this should change positively from the second half of the year with the deployment of the Ségur healthcare plan. Since the beginning of the partnership in 2013, the total volume of loans acquired by Caisse Française de Financement Local from La Banque Postale amounted EUR 27.6 billion, including EUR 3.1 billion over the first half of 2021, i.e. more than the volume acquired in the first half of 2020 (EUR 2.9 billion).

As part of its mission of refinancing large export credits, two new contracts were signed during the first semester 2021 for a total amount of EUR 0.2 billion, compared to EUR 0.2 billion as well for the full year 2020. One of the new contracts is related to civil aircrafts exportation and is the first one that benefits from a so-called "pure and unconditional" guarantee (GPI) by Bpifrance Assurance Export in the name, on behalf of and under the control of the French State. In addition, after the overall Covid-19 health crisis-related slowdown in the pace of negotiation of major export contracts in 2020, the start of 2021 seems to confirm a pronounced recovery in activity. Indeed, the number of requests for projects under negotiation is up sharply and doubled in the first half of 2021 compared to the first half of 2020. Since the middle of 2015, Caisse Française de Financement Local has granted a total of EUR 8.5 billion in refinancing loans to SFIL.

In 2021, SFIL has maintained and extended the liquidity support on export credits for cruise lines, introduced in the spring of 2020 as part of the approach developed jointly by the European credit insurance agencies and the lending banks.

Moreover, the European Commission renewed in May 2020 for seven years, i.e. until 2027, its agreement to the SFIL Group to carry out its activity of refinancing export credits provided by the French State; it confirmed its diagnosis of a market failure for the financing of export credits and the appropriateness and necessity of the intervention of a public development bank such as SFIL. An initiative is also underway to extend the scope of this activity to strategic projects: this involves allowing the SFIL Group to intervene in the mechanism for refinancing loans covered by the Strategic Projects Guarantee. This plan to expand the activity of the SFIL Group will enable France to propose to exporters a financing offer in line with the best practices in other large exporting countries, particularly in Asia. In 2020 and the first half of 2021, Caisse Française de Financement Local showed its resilience capacity notably in terms of solvency and liquidity, thanks to the public development bank model of its parent company, SFIL.

The SFIL Group was able to monitor and manage all of its risks, notably those related to market volatility and the economic situation of its customers. In this respect, SFIL has been able to adapt its organization and IT systems in order to enable all its services for Caisse Française de Financement Local to continue normally.

In 2020 and the first half of 2021, the financial impacts of this crisis remained very limited for Caisse Française de Financement Local, even if some temporary impacts were visible in its interim accounting results for the first half of 2020, due to banking regulations and IFRS accounting rules.

This confirms the excellent market access conditions as well as the persistence of a very low risk profile and solid financial results.

The Issuer's debt securities (*Obligations Foncières* and registered covered bonds) increased by an amount of EUR 737 million between 1 January 2021 and 15 September 2021.”
